EXPERIENCE

UX DESIGNER

Amazon Echo | September 2015 – Current

- Collaboratively drive the Alexa app entertainment experiences for a voice-first product; responsible for the integration of new music services and the improvement of existing features within the app
- Work in a fast-paced, agile development process that includes presenting designs to stakeholders and delivering iterations to engineering quickly and precisely as requirements and engineering scope shifts
- Deliver user flows, scenarios, wireframes, interactive prototypes, and redlines to stakeholders and engineering

UX DESIGNER

Microsoft Health + Band team | June 2015 – September 2015

- Owned and drove the onboarding for a new MSH dashboard experience
- Simplified the onboarding experience within extensive internal security requirements to deliver a delightful customer flow with minimal impact to engineering
- Presented clickable prototypes and mockups at every stage of the design process to PM and delivered final designs to engineering for production

UX + VISUAL DESIGNER

BDR-Studio | October 2013 – June 2015

- Owner of interactive design from concept to completion for web based client work
- Responsible for delivery of wireframes, prototypes, and coded web solutions in agile HTML/CSS development flow

GRANTS AND CONTRACTS SPECIALIST

Seattle Biomedical Research Institute | August 2012 – May 2013

- Working within a small leadership team, collaborated for redesign and implementation of lean processes for grant application, submission, and management within SBRI

SPONSORED PROJECTS OFFICER

Seattle Children's Research Institute | July 2010 – August 2012

- Working within the agile methodology, I collaboratively participated in the implementation of a Lean redesign of SCRI's grant application and administration process
- Used data and product flow visualizations to regularly deliver status updates to stakeholders including leadership and researchers
